From another source the following was btained: It was the determination of the strikers that no train should run on the Missouri Pacific, injunction or no injunc-tion. It was arranged that should a train pass through Fort Worth it must be stopped elsewhere. To this end a number of strikers nad been detailed to watch the read south of the city. The train arrived at the cross-ing, when it was flagged by the strikers The engineer not obeying the flag, the strikers next resorted to throwing the switch. armed with Winchesters and carbines, and marched to the depot with the avowed determination to suppress all opposition. No further attempt will probably be made to move trains before Monday. The posse will probably be kept under arms night and day. The people are in a terribie state of excitement and appear to be completely dumbfounded. The breach between the law and the strikers has been widened, and the bitterest expressions can be heard on every side. There are hundreds of Knights of Labor in the city who do not appear to regret the occurrence of to-day. It has regret the occurrence of to-day. Iron Mountain Railroads has now become an acknowledged fact. For the past few days the officials have been sending out the regular number of trains, which, although smaller at first than they were accustomed to before the strike, yesterday assumed their more natural proportions. East St. Lonis is now becoming the point of intertheir more natural proportions. Partly concealed in the reeds, a few yards distant. The entire posse advanced toward the men in ambush. They had reached the dict alongside the track when they ordered the throwing up of bands. The command was obeyed, but, as the hands came up they brought Winchester rifles. The officers were armed only with revolvers. They demanded the surrender of the strikers. Both sides opened fire almost simultaneously, there being not more than heathen smiled sweetl; and asked for a li-

simultaneously, there being not more than two seconds between the time that the first and second shots were fired. After the first fire the posse advanced, and continued fire ing. The strikers retreated befind some piles of ties, which formed a most excellent breastwork, and from the security of which they poured a murderous fire into the posses. The casualties among the posse were found to be three police officers wounded. Taiford was shot through both thighs, and special officer Dick Townsend was shot twice through the left breast. He died at 5:30 o'clock. Special officer Charles Sneed was shot through the throat and jaw. His wounds are fatal. Drs. Volker and Farran, of the Missouri Pacific Hospital, say that Sneed and Tulford cannot possibly survive. Only one of the strikers, and drinking-houses of every the said to be shot through the groin.

The Anti-Chinese Agitation. Sr. HELENA, April 4th .- McGlashan and Ravin addressed a large anti-Chinese meeting here last evening. Both speakers were welf received. McGlashan's conservative method of giving time and making the oycott effective made many friends. Itavin created a sensation by announcing that he would sue Judge Sawyer for libel if he didn't "take it back.

San Francisco, April 4th .- The Call and Bulletin printing offices were to-day made Union offices. The matter has been adjusted on the basis proposed by the Call and Bulletin printers, which is that 68 out of the 118 printers of the two offices were idmitted members of the Typographical Union. The remaining 50 will in the meantime hold their places until their cases have been arbitrated upon by the committee of five. The verdict of the committee will in each case be final. All points at issue between the two offices and the printers have therefore been settled.

Residence Damaged by Fire. Placerville, April 4th.—An alarm of fire brought out the department about 9:30 this morning. The cause of the alarm was found to be in the residence of H. N. Tracy, on Union street. The fire caught from the terra cotta pipe, between the roof and ceiling. It had burned for some time before being discovered. Prompt assistance re-moved all the furniture in safety, and the firemen soon had the flames extinguished. The loss is about \$500; insured for \$1,000.

Beware of Scrofula

Scrofula is probably more general than any other disease. It is insidious in character, and manifests itself in running sores, pustular eruptions, boils, swellings, enlarged joints, abscesses, sore eyes, etc. Hood's Sarsaparilla expels all trace of scrofula from the blood, leaving it pure, enriched, and healthy. SENATOR STANFORD ON THE LABOR TROUBLES.

Republican forms of government have always manifested a dangerous tendency to abandon all governmental method in great emergencies, and fall back upon the naked, elementary principles of primitive society. A government proceeding from the people is necessarily slow to act, because the will of the people can be ascertained only at spoke of his experience in the Eastern fruit trade, and gave it as his opinion that the spoke of the people can be ascertained only at spoke of his experience in the Eastern fruit trade, and gave it as his opinion that i, that consultation requires time. They are attempts to correct real or supposed abuses, or cure definite action. real or imaginary evils which the ballot box was instituted to correct and cure, by untary conventions on the part of those whose interests may be most seriously affeeted by the abuses or the evil com-

At a time when the public mind is run ning in turbulent currents; when chart and compass appear to be lost; when regular governmental methods have been repudiated; when anarchy appears imminent, it is very claiming that infallible standard of justice which leads to liberty and security. Senator Stanford declares that " if the people would live up to the creed of free government, as laid down in the Declaration of Independence, there would be none of these unhappy conflicts." He appeals to the greatest charter of human liberty ever promulgated, for the vindication of the position that each man's rights find their highest security in his respect for the rights of others. No greater fallacy has ever existed at any time than the supposition that an individual may trample upon the rights of another without thereby menacing his own liberty. Liberty is endangered by every infraction of the humble. Senator Stanford says this clearly, and declares it unmistakably when he says that sixty million of people in the United States have no right to deprive any single individual of his natural and inalienable rights. Any doctrine contrary to this establishes at once the absolutism of the majority, an absolutism more intolerable than the most despotic monarchy. Any rights of any single individual, however than the most despotic monarchy. Any creed of liberty which does not begin with the assertion of the existence of inalienable rights, places the existence of all human rights at the caprice of majorities. Whatever the right or the wrong of the claim of grievances of the strikers up to this point may have been, the question now is simply one of government according to the laws of the land, or its utter abandonment. The striking workmen have now invoked arbitrament by the law, and under which there is but one course to be pursued; but one sentiment to be entertained by good citizens. On the 9th of March Commissioner Dibble wrote Congressman Morrow as follows: "The people of California most earnestly emand that a law shall be passed at the present session of Congress that will in effect prohibit the exportation of shrimp and young fish by Chinese to China. If such a law be passed our citizens will have (and they are entitled to have) the food of the waters for themselves, and a most destructive vandal occupation will cease. The oft-repeated and serious complaint that fish food is becoming scarce in California furnishes a powerful reason why the Chinese exhaustion should cease and the cause of the complaint be removed. In this direcion your friends expect active and wise action. I inclose an article published in the San Francisco Evening Post of March 6th, and commend its consideration." Under date of March 20th Congressman Wm. W. Morrow responded as follows: "I need not assure you again that whatever I can do to secure the prohibit the exportation of small fish by the Chi nese shall be done. We have great diffi-culty in convincing Congressmen from the

nese are not the pleasantest and most of irable people to have in our midst: but we are working faithfully, and I hope to accomplish something at least.' Several communications from different portions of the State were received from rties, claiming that whole sections of the | der untry were cut off from their fish supply parties who built dams or other obstru as in the streams, without constructing ne necessary fish-ways. President Buck-ngham said it would seem that fish had o right in mountain streams, and that

A CLERGYMAN'S CURE.

The Rev. S. J. Graham, Presiding Elder of the U. B. Church at New Hazen, W. Va., writes that he had been a sufferer from Erysipclas for twenty years, when he was advised to try Ater's Sarsaparilla as a remedy for it. He did so, obtained relief before he had used half of the first bottle, continued taking it, and, when he had used three bottles, found himself "completely cured of the tormenting disease." This was after he had, unavailingly, tried many other remedies, and had the treatment of some leading physicians.

AYER'S SARSAPARILLA

Is the most perfect blood-purifier known to medical science. It

Purifies blood corrupted by Hereditary Scrofula, poisoned by Mercury, or tainted by the sequelae of Diphtheria, Scarlet Fever, and other Contagious Diseases;

Extirpates from the blood the germs of diseases in living and by extirpates from the blood the germs of dis-case implanted by excesses in living, and by disorder of the digestive functions; Invigorates the system, enriches impoverished blood, re-establishes the harmonious working of all the machinery of life; and Cures all maladies resultant from vitiation of the blood, the most fruitful cause of disease.

PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all druggists: Price \$1; six bottles for \$5.

GENERAL NOTICES.

Look Out for Your Head. No matter what parts it may finally affect, Catarrh always starts in the head, and belongs to the head. There is no mystery about they origin of this direful disease. It begins in a neglected cold. One of the kind that is "sure to be better in a few days." Thousands of victims know how it is by sadexperience. Ely's Cream Balm cures colds in the head, and Catarrh in all its stages. Not a souff nor a liquid. Applied with the finger to the nostrils. d7-lyMWF

The Griggs-Roche Case. In the Police Court Saturday the case o Wm. Griggs, charged with an assault to nurder Bartholomew Roche, was taken up, continued until next Saturday, the lat able to attend Court. Grove L. Johnson counsel for Griggs, stated that he had beer informed that friends of Roche had, unown to the physician attending the case taken him liquor, upon which he became intoxicated, and it was said that he had been seen outside the door of his house, drunk. Mr. Johnson thought that such course was apt to cause the injured man's have a worse appearance for Griggs. He therefore requested the Court to make an order for Roche's transfer to the County Hospital, or some other place where he could be well looked after. Judge Henry romised to have the matter inquired into, ut had doubt as to his authority to make such an order as requested. Mr. Roche and family deny the accuracy of the re-ports referred to by Mr. Johnson, and as-sert that he and his client have been misinformed. Dr. G. B. Clow writes to th RECORD-UNION concerning the matter "In justice to Bart Roche, whom I have reason to believe has been misrepresented to the public, I wish to state that, since the time the shooting affray occurred, he has not been under the influence of alcoholic stimulants, as reported." excite the admiration of every spectator for the classically beautiful scene. In "Comedy and Tragedy." she was presented in a totally different light. If she was all that vening and displayed in one of the dramas bresented, the audience applauding warmly. The entire reception was successful, and unless the lady is to be estimated as belieng her speaking countenance, and as in-incere in manner, expression and word, it was a welcome that touched her to the way, posing in the dignity of insulted womanhood, and yet suppressing the emotions of her heart for the sake of the revenge she plotted, she was one of the most striking pictures stage tableaux is possible to produce. Opinions widely differ as to Voodside were arrested on Saturday by of-deers Kent and Sullivan, for rape—there ditors some judges declared that she is a beautiful woman, clever, graceful and cultured, but not a great actress. Others who have had broad opportunities of com-parison and judgment were equally pro-nounced in saying that she is the coming American dramatic artist, and that now, in her youth, she is a consummate actor. We estimate her as gifted with dramatic qualities of rare power; that she has genius of a high order, and that her splendid qualities of person, her unquestioned fine taste and keen intelligence distinguish her as one whose native ability and ambition will place her foremost in her art. Her present position is more difficult to define. She is an actor of capacity, finish and great re serve power—in fact she constantly im esses upon the auditor the idea that she has not made her best effort, but that she is conscious of capacity to exceed. She probably lacks vivacity, and will steadily move to the tragic in her profession. She has underlying power and informing spirit, clear comprehension and discriminating taste, and natural refinement, and these are were at Mr. Preston's he never saw any-thing that indicated improper associations on the part of either, or he would have quickly put an end to it.
